Mrs. Julie Class - May 4 -8, 2015

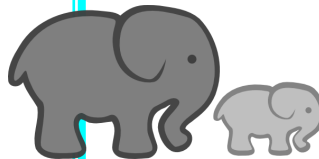

Themes & Activities

Last week we learned about a few of the bugs that God made. We learned that an insect has 3 body parts. A Head, Thorax and Abdomen. They also have antennae's. We learned the life cycle of a butterfly. We have been watching our caterpillars growing. They are now inside their chrysalis resting. We can't wait to see what happens next!

This week we will be learning about baby animals and talking about what we love about our mommies!

The letter of the week is Yy
